Don't see an option or class you're looking for on our list? We're happy to help! We also offer customized in-person seminars and webinars geared to what your organization needs.

Credential Options

Scrum Master for Nonprofits

With the help of your instructor, you will walk away with the ability to know how to implement the Scrum framework in your nonprofit organization and how such an implementation will accelerate the speed and value of any project for increasing the speed at which you achieve your organization's mission.

[Learn More Here](#)

Product Owner for Nonprofits

With the help of your instructor, you will walk away with the ability to know how to implement the Scrum Framework, knowledge of lean principles, Product Owner techniques, patterns of high-performing teams, and how the Product Owner role scales in an organization.

*Ask about combining trainings for a 3-day intensive Scrum Master and Product Owner course

Scrum Master and Product Owner credential curriculum was developed by the co-creator of Scrum, Dr. Jeff Sutherland. This course goes beyond the basics of Scrum and the Scrum Master role.

*These courses are supported by Scrum Inc.

Don't see an option or class you're looking for on our list? We're happy to help! We also offer customized in-person seminars and webinars geared to what your organization needs.

“

Testimonials

“This was everything I needed and more. So many webinars end up actually only being for one level of knowledge, and the presenter did a great job of catering to people within different types of organizations and with different types of teams. As someone who has worked with several nonprofits who have issues with silos and processes and procedure refinement, this proved to be an interesting new look for me at ways we could improve the way we work as a team.”

- How to Use an Agile Framework in Grants
-

“My nonprofit is small so I wear many of the hats of the roles discussed but this SCRUM approach to completing grants will help me better organize all that is needed and hopefully keep me from burning the midnight oil to meet deadlines. Thank you!”

- How to Use an Agile Framework in Grants
-

“Diane was great! Loved her teaching style and the opportunities to ask questions and engage in dialogue. The course set up made sense and flowed nicely. I definitely plan to do future training with her.”

- Dara Madigan, Scrum Master Attendee
-

“I loved the interjections of concepts and practices to show us a number of ways to bring these concepts back to our teams.”

- Scrum Master Training Attendee
-

“Diane offered flexibility and Sympathy to our unique organization.”

- Scrum Master Training Attendee
-

“Scrum has been a game-changer for Encore. This is an amazing opportunity to discover the difference it can make for your organization.

Thanks to DH Leonard Consulting & Grant Writing Services, LLC for introducing us to the concept and encouraging our implementation efforts!

- Shelly Loethen, President & CEO Encore Institute

“I found the course to be well structured, well paced, and a good blend of general concepts coupled with practical application.”

- Jamie Cox, Scrum Master Attendee
